These were followed by the Master's Oration upon at The Unity of the Common Mind. ' from George A. Weeks, A. B., of the closs of 1853; when the degree of Maskelor of Arts was conferred upon the twelve members of the graduating class, and the degree of Masker in course upon cieven of the class of 1853. The honorary degree of Dector of Divinity was conferred upon the Rev. Calvin Peace, the new President of the Vt. University also another D. D., and two honorary degrees of A. M., but I was nonble to catch the names of the fortunate recipients. fortunate recipients.

The exercises were throughout of a high order, in

The exercises were throughout of a high order, in comparison, of course, with the efforts of young men upon sindar occasions. There was little or no dragging from their tembs and paracing in public of old Greece and Rome, which annual custom has been so much inculged m, and, of late, so often ridicaled and censured. The rations all breathed a living, radical, hopeful spirit. The Valedictory and Salatacory orutions were especially comm indea, and were loudly applicated. The efforts of Messis, Ionny, Maiston, Labarce and Analysis were especially comm indea, and marked layor.

and Austin were also received with marked favor.
After the annual Corporation Dinner, the Courch was
again filled to beten to the address before the Associated Alumni, from the Key, Henry Smith, D. D., of chated Alumna, from the Rev. Henry Smith, D. D., of Lane Seminary, Ohio, and a member of the class of 1ser. Dr. Smith, owing to a micundenstanding of post office acdresses, tad received only a few days' notice of his appointment to deliver the address, and not having his appointment to deliver the address, and not having time to prepare one, had been driven, in this emergency, to the alternative of reton sing an old one, and presenting it. It therefore, betther in merit nor appropriatences, did justice to his high reputation and actionic longer that it. His manner, no sever, in some measure counterbalanced the unfavorative circumstances under which he appeared to tuild his appointment. His verice is one of the best, and he ranks high as a public speaker and pulpit orator. There was no poem, owing to the sickness of the poet class, G. C. Lane, of the class of 1800.

Weaterday evening, President Labaree opened his Weenesday evening, President Labarce opened his house and received and enter sined a large company of alamni, students, citizens and strangers, with that gentlemanly urbanily and dignity for which he is so much distinguished. And so closed the fifty sixta Anniversary of Mindlebury College. I must not forget to notice the excellent music discounsed by Hall's Band from Beston, who gave an excelent concert on Monday evening, and did much to and producing that favorable impression which was so generally made by the exercises of Commencement.

I must also mention an incident which caused quite as much excitent as anything that transpired during.

as much excitement as anything that transpired during the cay. It seems that one member of the graduating and only waited the moment when he should be free from the restraints of college laws not their executors to consummate his happiness. During the day the story somehow 'leaked out' among the audience, and immediately after the close of the Alumni meeting the large audience proceeded on masse to the Episcopal Church to witness the ceremoty, and in a very lew minutes the churce—pews, sieles and gallery—was Siterally packed, so there was interally no standing room within the walls. At a few manutes past 5 the couple appeared, and were soon "made one" according to the impressive ritud of the Episcopal Church and the crowd cisp reed, evidently thinking it a rather specify extlement in life to become "a man of family" within three hours after receiving his "sheepskin." I am inclined to think, however, that, after to king at the sweet face of the bride, the crowd were more

FROM PENNSYLVANIA

Correspondence of The N. Y. Tribune, OSCEOLA, Tioga Co., Pa, Toursday, Aug. 14, 1856.

Yesterday was a great day for the Republicans of North-western Pennsylvania. From 6,000 to 10,000 of the friends of Fremont and Free Kansas met in General Mass Convention at this thriving village. It was beyond all comparison the targest concourse of people ever assembled in Tioga County. I heard many, who have attended large meetings in other places, estimate the numher from 8,000 to 10,000. Fearing you may not have had a reporter on the ground, I give you some few facts in regard to it. From an early hour the people from the surrounding country came pouring in on foot, in single carriages, and in processions by large delegations, with various flags, banners, bands of music, etc. One delegation from Knoxwille and vicinity had over thirty four-horse teams, and many single teams beside. A great many flags had upon them "Fremont and Dayton." Among others. I tead the following: "Free Kansas." We will not be subdued." "For Union and Treedom." "Free homes for all." "Kansas." " Kesistance to tyrants is obedience to Ged." "No more Compromises." "The White House an Old Buck's nome! Never!"
"As the twig is bent, the tree's inclined." "Fremont and Jessie." "Freedom shall triumph. "No more stave territory"—"Democracy means Freedom, not Slavery." One wagon had 32 ladies, bearing each a flag of one of the States and Kanwas, the latter draped in black. At about 111 o'clock, a. m., the large assemblage was called to order in the beautiful grove on the bank of the ereek, near the village, by Enos Slossen, esq., on whose motion J. F. Donaldson of Wellsborough was appointed temporary Chairman; afterward Dr. Lewis Darling of Lawrenceville took the Chair as permanent President. Prof. Reynolds was introduced as the first speaker. He gave us a cheering statement of the religious influence brought to bear in this contest, in favor of humanity and the right, to such an extent as was never

Anown before in this country.

Mr. Williston of Wellsborough, was the next speaker. This gentleman handled the false charge of sectionalism, brought against the Republican party in an able manner. He made a short speech and was followed by J. C. Smith, esq., of Canandaigua, N. Y. who gave us an expose of the enterable delusion of "Squatter Sovereignty"—explained what true Democracy was—and reviewed in a very forcible and convincing manner the outrageous conduct of the General Government in regard to Kausas. The enactment of the Misseuri Euflians, miscalled "Law," were justly held up to scorn and contempt, as unworthy of this age and nation. Mr. Smith was loudly cheered at the close of his speech. It done him honor, After which the Hon. David Wilmot was intro duced, who was long and loudly cheered. He made an excellent speech-forcibly portraying the great issue of the day- the extension or non-extension of Slavery-the unjust and dangerous influence of the Slave Oligarchy in our Government, and the claims of the young and gallant Frement to the support of all lovers of the country and Constitution. We shall long remember the true and elequent words of this able champion of Free Kansas and Pree Speech. He was loudly cheered at the close of his speech. The Convenwith cheers for Frement end Dayten, and the vast concourse separated and departed for their homes. I wish I could have given you a report of the

of Proc Bears. And is sustain one of her the And is another omen of her the Karatora State will cast her ejectoral vote in November. I betteve Pouncytvanie will go for Premout'

St. Johns on Will of July The Workly Register of July 15 has the following steems: Tenberk Florafrom London arriv of his S-tureny, with the immercate from the Conside Verd I leads where she called to take them on beari. This is the second served of this hardy class of immigrants which this vosses has brought during the present year. It was reported a few works since that the people of the Cape or Verd Istands need not migrate-an abundant supply of provisions in their two country having alleyed the desire for removal to another and more prespectus part of the world. But the success of the Erza would lead to the supposition that there must have hern some mistake to the subject. The country hes been blessed with a heavy fan of rain. On Thursday night mid. Friday we had some very heavy showers, and the Island is already shawing the beneficial resubs they have produced. A private letter from Demarara states that a kind of coverpillar has appeaced in the colory in vest numbers, and is rapidly. destroying all bluce of vegetation; even the gress is deveuree by them and the follege of trees and plants soon disapp are when they attack it, leaving nothing but the bare stems and branches. They have also commenced on the cares, and had consequently ore ated great unessiness on account of their devastaticu.

PUBLIC MEETINGS.

COMMISSIONERS OF HEALTH. The Beard mit es usual on Saturday afternoon, in

Mr Valentino's office, City Hall, and took action on

Mr Valentino's office, City Hall, and took action on the following vessels reported:

Bank Cara Windsor, from Port au Prince on the 15th inst., with logwood. Cargo to be lightered to the city. Brig B. K. Faten, from Humacos on the 15th inst., with sugar and mola ses. Cargo to be lightered and sent to the city. Bark Architect, from Matnazas on the 15th inst., with sugar. Cargo to be lightered to the city after 30 days, and vessel to be sent to the South West Spit. Bark Frederick Demong, from Rio Grande on the 15th inst., with bines and hair. Allowed to proceed with stream permit. Cargo not to be landed in the city.

Rark Parana, from Bahis, with Coffee, on 15th; allowed to proceed after 5 days observation, if all remain

Brig Arabella, from Aspinwall, on 15th, with bark Brig Arabel 8, from Asjawali, on 15th, with bars and hides and two passengers. Allowed to proceed with stream permit; hides not to be landed in the city.

Brig Viginia, from Greytown on 15th inst. with wood and hides, and four passengers. Allowed to proceed—same conoutness as last.

Brig Weitehall, from Cardenas, on 15th inst. with sugar and melasses. Cargo to be lightened to the city

10 cays. or. Marietts, Smith, from Port au Platte, on 15th

Schr. Marietts, Smith, from Port au Platte, on 15th is st., with hices, tobacce and mahogany. Cargo, except lides, to be lightered to city.

Schr. J. A Stanley, from Coarleston, on the 15th, with wheat and navalistores. Detained seven days.

A communication from the Mayor of Charlest in was received, in answer to one of Mayor Wood, desiring information regarding the health of Charleston. He states that coincet daily reports are published in the papers of that place to which he begs to refer his flower Mayor Wood.

The tollowing neithin, numerously signed, was to.

Honor Mayor Wood.

The tollowing patition, numerously signed, was received by the board:
To the Homoroble the Commissioners of Hoolth of the City of New York.

The understand, resident in the immediate vicinity of Tenth New York—
The uncersumed resident in the immediate vicinity of Tenth avenue and susteanth street, or doing business in that locality, respectfully represent to your honorable body—That on the black bounded by the Tenth avenue, Fifteenth and Susteenth streets, are large shees and stables covering atmost the entire square, it which are kept, as mar as can be ascurated about two bundred cows. These cows are kept in the tables continually, without below permitted to walk out in the yard for the related to the stables continually, without below permitted to walk out in the yard for exercise, as dhardly ever see even the sight of day. That they are feel upon the swill which is manufactured ion the premites it large quantities, and oftentimes swill red to remain in the year out if it becomes sour, and a receptacle for millions of in secta. That the aforesula slorg, in greater or sea quantities, it siwhats there, and that a foul smell and sinkly efflowing its inverse there, and that a foul smell and sinkly efflowing its siwhats there, and that a foul smell and sinkly efflowing its siwhats there, and that a foul smell and sinkly efflowing the surrounding inhabitants. That the cows are milked and the mile sold in this city, which it is almost heedless to inform your Houvrable Board, it or on hypothesis and some the mile scale in this city, which it is almost heedless to inform your Houvrable Board, it or on hypothesis is allowed to run over the sidewalk, and into the streets at digatters. We respectfully singest that some action may be fast in upon it, as that the stables and cows may be removed and the place cleaned and purified. We are of the option that in more important matter could come before your Hanorable Board. And your petitiones will ever prof.

and the place cleaned and purified. We are of the epision that is more important matter could come before your Historia ble Board. And your petitioners will ever pray.

The petition was referred to the City Inspector to make the necessary inquiries and investigation.

A communication was received from the United States Mail Steamship Company, in regard to anchoring their vessels outside Moro Castle, at Havana, and notion on the same deterred.

netion on the same deterred.

The following resolution was adopted:

Res. krd, That the masters and owners of vessels now lying at or in the vicitive of the South west Soit, and of such as may be reper be sent there by once of the Houth Officer, are briefly directed to hallsat and otherwise care for said vessels, so that they shall not suffer from being placed at said a chorage.

A number of containing the vessels requiring to be

A number of captains of the vessels requiring to be removed from Gravesend Bay were in attendance before the Commissioners, and protested against a removal of their vessels to South-west Spit as called for by a previous resolution of the Beard. They stated that the areneage was not good at South-west Spit, and that it was a dang-rous locality in case of storm. In a prelonged storm it would be impossible to send a hore for stores. They stated, further, that at this pace lighters could not get along-ide to receive the cargoes of the ships. Above all this, they protested that it was putting them to great and unnecessary expurse. A number of captains of the vessels requiring to b

After some other business the Board adjourned.

CITY ITEMS.

THE SUMMER GARDEN.-The benefit of the memers of Mr. Stuart's company has been, on account of the recessity of preparing for the Dramatic Fund perormatce, pestponed until to morrow evening, upon which cocasion a new dramatization of David Copper field will be for the first time presented.

THE AMERICAN DEAMATIC FUND ASSOCIATION. In accordance with the previous accouncement, the Ninth Annual Benefit of this Association takes place this evening at three of the principal theaters About sixty performers have volunteered their services for the entertainment which will be given at the Academy

An error of the types made us, on Saturday morning, announce that one of the theaters placed at the Esposal of the Committee of Arrangements is the Broadway; it should have read the Bowery. The recents of this establishment for the evening Mr. John Brougham gives to the fund; and that the benefit may be made as remunerative as possible, he announces a new piece for the first time.

At the Summer Garden, Miss Agnes Robertson and

Mr Dan Bourcicault have volunteered, and the entire company will also appear-Mr Stuart contributing the entire gross receipts. This division of the dramatic force into three powerful companies is indicions, and will undoubtedly prove a very successful piece of theatrical engineering; and, that the triple attack upon the public purse may be figureially victorious at every point, we truly hope a reference to the cilicial advertisements will show the names of the pieces and the performers at each house.

AMERICAN MUSEUM .- The time has not yet come for the commencement of the Dramatic Season at this favorite place of amusement, but the Lecture Room is occupied by the magician, Wyman, who will appear every afternoot and evening this week. In the matter of perferming seeming impossibilities, by means of the various hewildering slights and tricks of the conjurer's art, Wyman is perhaps as inexplicable as any me who has appeared before modern beholders. The managers are making constant additions to the stock of curiosities, and would seem to have inherited from the original Barnum his poculiar power of making the Museum ever attractive. The seals, the anaerdas, and the other "curious fishes," are soon to ave an amiable addition to their pleasant society in the shape of a comple of live and neighbody sharks, for whose account dation sait water pre nises are in curse of preparation. The whale baby has retired from public hite ter the present, for the purpose of having his internal presence for in a stone of thorough repair, he will, however, in a few days return and line of stages has been organized to run between Mot-nacke the Museria Ling primary abiling place. The

admire of abort of beauty will find a pair of Caffie tion keys, and an many cutting, "all acre," whose presents charms or I amply topey a careful inspection. he form tipers, looperdo, and other portly playful jets in the cages, receive calls every aftermon from the lien-tener and a young indy-nequalitance. He s nomical people to pursuit of a great deal of smuseneed for a very little mesey will do well to call at the

BUTTER'S STRENGTED NEW OFERA HOUSE. The Buckley bereasders have, during the past two months, created a spaceous hall on the rear of the lot Noe 5-5 and 5-7 Broadway. The building fronts on Mercer street, and has a spacious entrance on Broadway at No. 580. It is over two stories in height, fifty-three fest wide and seventy feet deep. In addition to the seate on the first floor a specious gallery has been rected, extending around the half to within twenty fact of the prosceumin on either side, and it is oalculatd the the house will comfortably seat seventeen hunred persons. The stage, with its appointments, simithose in theaters, is thirty feet deep and twentyx feet wide at the presentium. The ceiling and walls ere finely frescord, giving to the house, when alted, a fich appearance. In the construction of the all the matter of ventilation has not been overlooked. as in addition to openings in the upper part of the house several windows have been left on the front and rear During the winter season the house will be heated by large furnaces in the basement. The company's dressing rooms are under the stage. In the vent of fire, or other panie being created, there is emple means of egress Besides the front doorway a wide hall has been left uncer the stage, leading from the probestra to Mercer street. The house will be ght d by chandalers around the gallery. The buildng will be completed by the 25th of this month, and will cost between \$16,000 and \$18,000. The compaby numbers seventeen performers and the orchestra

THE BLACKBERGY CROP OF LONG ISLAND -Until last year, nearly the whote of the Blackberries grown open Long Island were suffered to go to waste. Previous to the riponing season last year, Messia. Doew & French of this city, who are largely engaged in the truit trade, sent out Mr. Joseph T. French, who prombulated the interior of the island, indusing the people to gether the berries, and offering them a beral price. The result was, a moderate quantity were saved, and the advantage of saving all was proved, even to Long Island farmers, who are rather law to see their own interest. This year they took the same course, and the result has seen that this city has paid the farmers of Long Island for the Blackberry crep of this season not less than five thousand dellars. Three commission houses, Mesers. Cohen, Drew & French, and T. & W. Ryer, sold three thou-and bushels. The prices paid the pickers averaged about 6]-cents a quart, and some have picked more from their land at that price than it would sell for per acre

Inspector, we learn that there were 651 deaths in this city last week, being an increase of 24 over those of the week previous. The number of deaths among children was 503-an increase over those of the previous week of 07; of whom 311 were under 1 year, and 494 mider 5 years of age. Of adults there was a decrease of 13 deaths during the week. The following were among the principal causes of death: Consump tior, 25; cholera infantum, 176; cholera, 0; choler merbus, 1; convutsions (infant le), 31; dearrhea, 29; dysenters, 27; inflammation of the bowels, 11; searlet fever, 10; measles, 10; marasmus (infantile), 84 There were also 4 deaths of bronchitise 5 of convestion of the brain, 4 of croup, 25 of drepsy in the head, 5 of typhole fever 5 of typhus fever, 8 of hosping cough, of inflan mation of the luegs, 8 of smallpox 15 of teething and 6 of old age. There were 27 stillborn cases, 5 premature births and 16 deaths from violent In the public institu ions of the city there were 37 deaths. The following is the classification of diseases and the total number of deaths caused by each disease: Bones loints, &c. 5: brain and nerves 80; generative organs, 7; heart and blood ve-sels, 5 lungs, thront, &c., 71; old age, 6; skin, &c., and cruptive fevers, 28; stillborn and premature births, 02; stomach, bowels and other digestive organs, 367; uncertain seat and general fevers, 45; unknown, nrinary organs, 4. The nativity table gives 578 natives of the United States, 59 of Ireland, 30 of Ger many, 10 of England, 2 of Bultish America, 1 of France, 1 of Helland, 1 of Italy, 2 of Scotland, 2 born at sea, and S unknown.

VISSUES REMOVED FROM GRAVESUND BAY .- The Commissioners of Health having, at the solicitation of he authorities of Kings County, required the removal of the vessels anchored in Gravesend Bay for purification, Mr. Health Officer Thompson issued an order on Saturday to Mr. James Callahan, a New-York pilot, charging him with the duty. Mr. Calluhan was directed to associate with him two other pilots, and with their advice select a suitable anchorage. Thos. Nerris and Albert Malcolm were selected by Mr. Callabar to assist him, and with other necessary aid, emploted yesterday the removal of the following named vessels to anchorage about four miles west of the southwest spit. Bark Architect (from the upper quarantine archorage), ship Frigate Bird, burk Naccochee, ship Warhawk, schooner Young America, ship Lady Franklin, bark George Leslie, ship Jane H. Glidden These vessels were nearly all deserted On the Frigale Bird there was nobody but a colored ecck; both anchors were down and foul, and one was broken in getting it up. This removal will cause considerable expense and inconvenience to parties interested in the vessel-, and it is by them contended that it was done to calm idle fears.

NEW STEAMBOAT LINE .- During the past two years much desatisfaction has existed on the part of the residents of Harlem, Mott Haven and Morrisania a regard to the management of the Harlem Railroad Company. It is alleged that the commutation fare has been doubled, several of the most accommodating trains withdrawn, and the changes of the time-table so sudden and numerous as to seriously incommode these hvirg along the line of the Road and whose business daily calls them to the city. All attempts to olds in from the Railroad Con-pany a reform of these abuses buying failed, several of the residents of the shove named villages met and organized the "Harlem and New-York Navigation Company," having for its object the transportation of passengers and freight to and from New York and Harlem. The Com pany not being able to purchase a suitable steambout last Spring determined to build one, and accordingly entered into a contract with Leonard II. Boole, wh immediately went to work and laid the keel of the hist boat ever buist on the Harlem River As she is the first effort of the contractor on his own account, his pitmest skill has been exerted to produce a mode which for beauty and speed could not be suspassed. The beat is now : early completed, and on Tuesday sext at neen will be faunched. Her dimensions are as lows: Length of deck, 141 feet, 6 inches; breadth of deck, 37 feet, 4 inches; breadth of hull, 22 feet, 6 inches; depth of hold, 7 feet, 6 inches; dunmeter of wheel, 24 feet. Her engine, built by Fletcher, Harrison & Co , is 50 inches in diameter and 8 feet stroke of piston. She has accommodation for 500 passengers, but can carry, without much inconvenience, half as many more, beside considerable freight. It is ex pected that she will be ready to run by the first week in October between Harlem Bridge and Peck slip, making several intermediate stoppages, and at a rate of fare much less than charged by the R Broad Conpany. We understand that the Navigation Company contemplate building another passenger boat and also a freight steamer to accommodate the wants of the large and increasing manufacturing inverests at Har lem, M. ti Haven, Morrisonia and other places ino of etages has been organized to run between Mor-

every arrangement made to promote the inter st and presperity of those subarban villages which, at no die ant day, must become a part of this great metropoli-

A meeting of citizens of the Eighth Ward, Brookly was held at Mechanics' Hall on Priday, to take into consideration the sickness prevailing among the per-I population in the lower part of the Ward and on the shore below opposite the Quarantine, and to devise means to prevent its extension into the densely populated parts of the Ward. A Committee of fiv were appointed to center with the Board of Health and adopt such other measures as may be deemed to The Committee are: The Hon, Heary C. Murphy, Dr. Wm H. Williams, Ex-Ald. Wyckoff. Ex Ald. Wilson, and J. C. Jones, esq.

NEWSPAPER CHANGE - The Albany State Register type and materials have been removed to New York and it is supposed they will be used to start an afternoon paper in the interest of George Law for Governor

HEALTH MATTERS AT STATES ISLAND .- Since the destruction of the barricade at the Hospital gate. Staren Island, but little if any action has been taken by the people of Castleton. Ten sertinels are still re thined, and keep watch day and night about the gate and along the wall. But as parties are permitted to pass freely in and out of the gate, there does not appear much use for keeping them on duty. Person who have been sent to the Hospital are not, however. permitted to go outside until their baggage and clothes have been freed from infection.

George W. Daley, the noted one-eyed emigrant runner: Peter W. Roff, and Joseph Silver, arrested on a charge of aiding to demolish the barricage erected around the Quarantine-Hospital gate, were taken in charge by constable Gi'es and conveyed before Justice Fream. On the examination Roff was fully commit ted in default of bail to answer at the next Court of Sessions. The examination of Roff having been protracted tal a late hour Friday night, one eyed Daley and Silver were committed for their examination sat under morning These two were not placed in confide ment, but allowed to go at large. During Saturday the parties procured a writ of habeas corpus from Judge Metealf, returnable to morrow The three who have been thus arrested expect to recover largely from the Castleton authorities for false imprisonment. Of the other parties for whom werrants were issued none as yet have been arrested. It is said that no special effort will be made to effect any additional ar-

The aprehension from yellow fever at Castleton has almost entirely subsided. A meeting of the Board of Health of the town was held on Seturday afternoon. Dr. Lea, the Health Officer, reported the town in a healtny state, and that no cases of yellow fever exsted within its boundaries.

There was some considerable talk about replacies the berricade around the gate and in regard to the watchmen being lax in their duty, but the matter was finally disposed of by leaving it with the Health Officer to take such course as exigencies arising in the case might de mand. After the appointment of a Com mittee to cenfer with the Commissioners of Emigra tion, and to ask them to strictly enforce their rule relative to persons leaving the Quarantine ground the Board adjourned.

At New Utrecht and vicinity the excitement as to the fever, instead of decining, is on the increase. The is feeted vessels anchored off the shore, directed to be moved to the South west Spit by the Commissioners of Health, have not been taken away yet. Before they can be got off nearly all of them, it seems, re quire additional men to move and properly protect to in at their new anchorage. These vessels, though directed to supply themselves with such men, have not been able as yet to make up their complement. I will thus probably be two or three days before all as got away. Mayor Hall of Brooklyn has placed a detailed force of policemen to guard the shore of Brooklyn, from Thirry-sixth street to the road leading to New Utrecht, to protest Brooklyn from danger of infection. Ragpickers are especially prohibited from going along this thoroughtare, to prevent danger to the city from infectious rags being picked up, which have been thrown overboard from the vessels at

STARBED WHILE FENCING WITH KNIVES - George Wilson a colored man, was dargerously, and it is thought, fatally wounded, at 11 o'clock justerday morning, is the greecry No 92 Variek street, while feneing with a choose knife with Geo. Legue, also colored. The parties were intimate and on friendly terms, and having accidentally met in the grocery commenced fencing in sport with the knives. The windows being chood, and while the two were engaged parrying each others the blade of Logue's knife in his abdomen. The wound inticted was horrible, the intestines following the blade and protruding several modes. Policeman Curtis of the Eighth Ward was immediately called in, and having procured a carriage, he had the wounded man conveyed to the New York Hospital, where he lies almost at the point of death. On being questioned as to how he received the wound, he stated that i was accidental, and that Logne was not in the least to blane. The latter gave binself up to the Police, and expressed great regret at the unfortunate occurrence. He was brought before Justice Davidson, who committed him to await examination.

SCHOOLD PATAL STARRING ALFRAY .- Between and two o'clock pe-terday morning, a deficulty oc purred in the lager beer cellar of Charles Fulmer, No. Chrystie street, between Peter Reisler and Heary Steeckler, Germans, who had been playing cards for drinks. Relsler being the loser felt irritated and used insulting language to his opponent, who pushed him to and the door Reisler then seized a large cheeseknife and with it etabbed his enemy in the back and left side, inflicting wounds which, it is thought, will prove fatal Several bystanders immediately interfered and beat Reisler, but he managed to get away from them and fled into the street, where he was ar rested by Officer King of the Tenth Ward Police, and ocked up in the Station-House. The wounded man was attended by a physician, and afterward went to his residence, No. 28 Christie street, where being thought, yesterday, to be in immment peril of his life, Coroner Gamble was summoned to take his aute mortem examination. A jury was impaneled, they

tem enamination. A jury was impanied, they made the following statement under outh:

About 123 o'clock just night, I want to Mr. Fulmer's salesm, and there met the prisoner, who asked me to play a game of carde with him for some lage; herr: I sat down and played until he had lest five g'asses; he ill-luck ma le him irritable, and he refused to pay for the beer; but when I told him that if I had been the loser I would have paid, he consented to pay for it, but said to me, "If you had lost the beer word could make it up by cheming the public." I told him that I cid not sike such talk; he then said. That when my wife lost a ring and his wife found it and returned it to her, the never even thanked her for it; he continued to king in this strain for some time, and finally I tolo him that if he did not stop I would strike him, and with this I shoved him toward the door; the landlerd was at this time cutting some ham wait the knife. and with this I shoved him toward the door; the land-lord was at this time cutting some ham with the knife now shown, and having laid it upon the counter, the prisoner picked it up and stabled me in the back, ho was then surrounded by those in the saloon, but esspect from them; I walked around to the doctor's at No. 14 Bayard street, and theree home: I have known the present for a year, but never had any dif-ficulty with him until last night.

At the close of the examination the prisoner wa committed to the Totals. His brother, Charles, and several others who witnessed the stabbing were held to bail to appear as witnesses. Both parties reside at No. 28 Caryetic street, where Stelch'er keeps a

Mone Statesho .- An aftray took place, on Saturday, at the hearding-house No. 331 (Freenwich street, m which Mr. Geo Haig, one of the boarders, was dengerously stabbed. It appears that the night before, two other gentlemen who were boarding in the bouse, Mr Timmote and Mr. O'Flyr, made considera-

who the following morning, complained of it. Tom exemperated O From and Commons, and as Mr Hare was leaving the house, those to gentlemen assault at him, and Timmous plunged a dagger twice into his breast and side. One of the wounds influted was slight, but the other being just below the heart, and penetrating near the seventh rib, is highly dangerous The wonneed man was taken into the house and at tended by a physician, but it is feared that the rater tal hemorrhage will cause his death. After commit ting the foul act, the two men went to a police officer and entered a complaint against their victim, after which they kept out of the way, but yesterday aftertoon were arrested by Sergeant Smith of the Fifth Ward Police, and held by Justice Welsh to await

ATTEMPTED OUTRAGE UPON & GIRL.-John C Smith, claiming to be a "respectable Southerner," stopping at French's Hotel, was arrested for an attempted outrage upon the person of Isabella Videll, a girl thirteen years of age whose parents reside at No and Delaney street. The necused accosted the child as she was passing the corner of Sulfalk and Hester streets, but she passed on without noticing him; he, however, tollowed her, when she to get out of his way, ran into an alley. Here her cries for help brought some lacies to the spot, and he was prevented accomplishing his foul purpose. An officer was sent for, but the S uthern gentleman came near being mobbed by some infuriated females before he arrived. The accused was held to bail by Justice Brennan to answer the charge.

THE LATE SUPPOSED DEATH ST VIOLENCE .- Coroner Hells held an inquest on Saturday upon the body of Win H. Shaw who was found with his head badly ent, and insensible, in Sixty-first street, on Friday morning, and who was supposed to have been attacked and beaten by rowdies. The evidence showed that the injuries were caused by a fall, received while intoxicated, and were not the cause of death. The verdiet of the Jury was: " Death from congestion of the brain, produced by intemperance."

KILLED BY a Falt. — Coroner Perry held an inquest on Saturday upon the body of Fdward Dominicod, a colored min fifth four years of are, who accidentally fell off a pile of lumber in the paid of Mr. Duyse. Chery street, and was instantly killed. Venlict, "Accidental death."

DROWNED. - A boy, fifteen years of age, accidentally

FOUND INSURED.—John McGuire, a boiler maker, resoling at No 583 Grand street, was found yesterday morang lying a secasible in Monroe street, near Grand, with a terrible make on the lead. He was concaved to a drug store, and there attended by Dr. Kimbara, who expressed fears that he could not recover. LAW INTELLIGENCE I NITED STATES COMMISSIONER'S OFFICE-AUG. 14

MADAME RONDEAU'S CASE.

The United States agt. James F. Miller, master of the stap Good Hope. The examination of the case of Capt. Miller, who is charged with having smuggled, or consided at smaggling, the 40 cases of variable articles which were seized in Madame Rondesu's room, has been going on for the past two days. We give the substance of the testimeny, which makes up a story not very dissimilar to that which has previously appeared in THE TRIB-

Andrew M. Brown, mate of the ship Good Hese, was the first with ere called: Madame Rondeau and her unio came as pareingers, to his knowledge, from Calcutta, having with them 40 cases of goose, whose contents were unknown to him; he understood Madame R. to be a kept imperest; on the security of hor baggings the capanin paid 209 ropees in order to release her goods from a charge of debt to the owner of the places which hrught them to the vessel; sussequently however, he was paid the amount of his avoider part of them were put to be given and from time, and the security and then the begans and from time, and the security and the many mailers is her begans and from time, and the security and them ever put are estateroom; to of them according to her representation of or in furniture, we seeing appared etc. the cytain was making at his man ifeet, asked her if she had anything dustables and not one agent account for the content flows officer coarsed the rever beta, she pour ed out first or it trucks and example and peaking as the fortile ashero.

Alternant she came to the vessel with a French centleman,

the creek here, she poor ed out fine or she trucks and seems the creek here, she poor ed out fine or she trucks and seems to the poession, which he childed, and permitted her to take ashers to the vessel with a French centiferance her dealers and the same to the vessel with a French centiferance who maked for her barrane, but mether any Coraum house officer, not cause the same at the conditions of the cause of the cau
